Education

Bachelor of Technology in Computer Science & Engineering,

VIT Bhopal University

Cumulative GPA: 8.56/10

2023 – 2027

Madhya Pradesh, India

Senior Secondary, Government Model Sanskriti Senior Secondary School

Percentage: 86.6%

2022

Haryana, India

Secondary School, MDN Global School

Percentage: 85.8%

2020

Haryana, India

TECHNICAL SKILLS

C, C++, Java, Python, MATLAB, AWS

Projects

Robotic Prosthetic Hand

- Built a camera-based robotic prosthetic hand using Python (OpenCV) and Arduino for real-time gesture control.
- Applied vision-based recognition to drive servo motors, improving flexibility and cost efficiency.
- Contributed to design, coding, and hardware integration, creating a functional assistive prototype.

Deepfake Detection

- Built an AI-powered deepfake detector using CNNs and Xception for image authenticity analysis.
- Developed a real-time web app with Flask, Node.js, MongoDB, and WebRTC for live deepfake detection.
- Used OpenCV and Optical Flow Analysis to identify visual and motion inconsistencies in media content.

Structural Beam Analysis Report Generator

- Automates simply supported beam analysis using Excel input.
- Generates professional PDF reports with SFD and BMD diagrams.
- Uses Python and LaTeX for accurate, high-quality documentation.

Extracurricular Activities

- Worked as Co-Lead in Corporate Team in Notion Community Club.
- Founder of Andy Haryana Club.
- Member of NSS Unit.
- Core member in AdvITYa'24.

ACHIEVEMENTS/CERTIFICATES

Secured Elite Certification in NPTEL Cloud Computing [🔗](#), NPTEL

GEN AI using IBM Watsonx [🔗](#), IBM

Azure Data Fundamentals DP900 [🔗](#), Microsoft
